In many cases Community Service! does just that. Sometimes the community doesn't know how to get joy out of life until somebody steps in and

### ABOUT HENRY FRICK

The Mystic Worker is a little magazine issued by a fraternal insurance organization which operates in the 'Frick's Monument." Here is the edi-

Henry C. Frick died at his palace in New York City on December 2. To his wife he leaves an art gallery worth \$50,000,000, and an income of several millions per annum. To his son and daughter he leaves each \$25,000,000 and an income of several millions per annum. To a number of universities, hospitals and other public institutions which don't care from whence come their endowments he leaves almost \$200,000,000. Thus to a select few, the country's greatest industrial genius ktaves his millions.

To the lowly, the underdogs who toil, 'he leaves the memory of the Homestead strike, with its 3421 crushed workingmen who were striking against a reduction in wages during a panic. He licked the men to a frazzle. Twenty were killed. It was a glorious vic-

### OBSERVATIONS.

It is surprising how many householders sleep soundly while burglars ransack the upper floors of their homes but who are quickly awakened and in a fighting mood when the intruder goes to work in the basement.

Try Freezone! Your druggist sells a tiny bottle for a few cents, sufficient

## 20 Trials Free To Show You What Clean Teeth Mean

All Statements Approved by High Dental Authorities

Look Now

See how the teeth's whiteness is dimmed by film. Perhaps tartar has formed in some places.

Look Later

See how the teeth have whitened - how the film has disappeared.

This is to offer you a 10-Day Tube of Pepsodent-the pepsin tooth paste which combats the film.

Able authorities have proved the product by clinical and laboratory tests. The results are beyond any question. Leading dentists everywhere are now urging its adoption.

We ask you to prove it by a 10-day test. Do this for your sake and your children's sake. See for yourself how it will help you to cleaner and whiter teeth.

### Film Wrecks the Teeth

That slimy film which you feel on your teeth causes most tooth troubles. Every modern dentist knows that. And for years dental science has sought a way to combat it.

Film is what discolors - not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea

Now science knows a way to combat it. The way is embodied in a dentifrice called Pepsodent. It is now used daily on millions of teeth, largely by dental advice. To those who don't know it we supply a free tube, so they may find it out.

### Old Ways Don't End It

This film is clinging. It enters crevices and stays. The tooth brush doesn't end it. The ordinary tooth paste does not dissolve it. That's why millions find that well-brushed teeth discolor and decay.

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to constantly combat it.

But pepsin must be activated, and the usual agent is an acid harmful to the teeth. So this method long seemed barred. Now science has found a harmless activating method, and teeth can now be daily cleaned as they never were before.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how teeth whiten as the fixed film disappears.

This means more than pretty teeth. Compare your teeth now with your teeth in ten days and decide what is right for yourself. Cut out the coupon now.

A scientific film combatant, based on activated pepsin, now advised for daily use by leading dentists everywhere.
